COURSE DESCRIPTION

World of Work is a class specifically designed to prepare students for the transition from school to work. The academics portion of the class will revolve around job skills (i.e. searching for a job, interview skills, and social skills). Students will go out to work 1-2x per week with a job coach to build their work skills and independence.

STUDENT EXPECTATIONS

Since we are preparing students for their future in the workforce, we hold all students to the same expectations. Students should wear jeans and clean sneakers on work days. It is also important that they are clean shaven, hair combed, teeth brushed and wearing deodorant.
